## Reasons for allowance

The following is a statement of reasons for allowance:

Upon consideration, the inclusion of the claimed micro-electromechanical assembly, as claimed in the combination, is not found in the prior art. This difference is considered patentable over the prior art and reflects an improvement in the field of endeavor since the following apparatus and method claim limitations reflect an improvement in the field of endeavor and over the prior art of record.

The primary reasons for allowance is the following claimed combination is not taught by the prior art: a micro-electromechanical assembly that comprises a substrate that incorporates drive circuitry; a micro-electromechanical device that is positioned on the substrate and is electrically connected to the drive circuitry to be driven by electrical signals generated by the drive circuitry; and a covering formation that is positioned on the substrate and is configured to enclose the micro-electromechanical device.

Silverbrook (US 6180427 B1) and Silverbrook (US 2001/0022598 A1) fail to a covering formation that is positioned on the substrate and is configured to *enclose* the micro-electromechanical device.

Silverbrook (US 6180427 B1) teaches depositing layers to form different portions of the actuator, but the reference is <u>silent regarding an enclosed</u> microelectromechanical device.

Further, Silverbrook (US 2001/0022598 A1) merely teaches a portion of the ink ejection port 28 is enclosed by a housing, however the micro-electromechanical device 10, on the whole, is exposed and <u>not enclosed</u>, contrary to the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **Contact Information**

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Raquel Y. Gordon, whose telephone number is (571) 272-2145. The Examiner can normally be reached on M Tu Th and F 8:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the Examiner's supervisor, Stephen Meier can be reached on (571) 272-2149. A fax number is available upon request.

Any inquiry of a general nature or relating to the status of this application or proceeding may be directed to the Examiner or Supervisor.
